3-Blade Propellers Overhauled in 2019

The image shows the interior of a private jet cabin. There are five seats in total, arranged in a 2-2-1 configuration. The two seats in the front row are facing forward, while the two seats in the middle row are facing each other, creating a center club. The fifth seat is located at the rear of the cabin, facing sideways. The seats are upholstered in a light-colored, possibly leather or high-quality fabric, with a quilted pattern on the seat cushions. The cabin walls are finished with light-colored wood paneling. Large windows with light-colored curtains are visible on both sides. At the front of the cabin, the cockpit is visible, featuring a complex instrument panel with numerous gauges and screens. The ceiling is white with recessed lighting and air vents. The overall atmosphere is clean, modern, and luxurious.

Interior

Interior refurbished in 2021 in a five (5) passenger executive configuration featuring a four (4) place center club with two (2) executive writing tables and an aft side-facing lavatory seat.
